St John

MAKING A REAL DIFFERENCE IN OUR COMMUNITY

St John Ambulance is a charity that has been supporting community wellbeing for over 140 years. We help tens of thousands of people each year through the delivery of health and medical services, first aid training and products, and social inclusion programs.

Having provided these services to the community for well over a century, you can imagine the countless lives that have been saved thanks to St John people. Our country relies on St John services to put on and attend the many incredible festivals, shows, sporting events and more that we are world-renowned for.

But it's not just our Event Health and Medical Services making an impact in the community. We also have a dedicated team of Community Care members who provide companionship, social connection and assistance with a wellness and reablement focus.

Additionally, we have a thriving Youth Development program, which sees hundreds of young people getting involved in learning a range of first aid and life skills, and applying their knowledge to assist at events alongside qualified adult mentors.

Our rich history is also well documented and maintained by passionate Historical Society volunteers, who can tell you all there is to know about St John.

Every single one of our volunteer members makes an outstanding contribution to the community. They give their time freely to care for and help others, all without expectation of recognition or reward. They would never admit it themselves, but they're everyday heroes to us.

Beyond our extensive volunteer services, we also provide industry-

leading first aid training and public access resources. St John Ambulance gives the community the skills to help save a loved one, friend, work colleague or passer-by, should accident or disaster strike.

Couple this with the broad range of first aid kits and equipment we range, and you have more hands in the community prepared to save lives.

Community resilience and wellbeing are at the heart of everything St John Ambulance does, and our dedicated volunteers and staff carry out our range of community programs and activities to this end.

The incredible support we receive from the community through the St John Lottery enables us to continue our vital work of creating a safe, supported, engaged and resilient community.
